Your Mobile Messaging Solution

“YOUR SEAMLESS AND ULTIMATE MOBILE MESSAGING SOLUTION”

The initial use of Short Messaging Service (SMS) was for notifying a mobile user of voicemail. Consecutively, SMS evolved to become one of the most successful mediums for communication and a channel to provide value added services.

SMS broadcasting is the delivery of information to mobile phones via the Internet and SMS GATEWAY. This is one of the most economical method of sending information to direct your clients, prospects, employees, or members' mobile phone in an instantaneous time frame.

SMS GATEWAY Manager enables you to send SMS to any mobile phones worldwide, anywhere, anytime, as long as you have a PC/Notebook with Internet connections. This easy to use web-application is perfect for enterprises, executives and individuals who want an instant and hassle free alternative to mobile phone SMS sending.

Subsequently, SMS GATEWAY allows you to deploy your SMS Campaign that gives you the ability to run campaigns via the SMS medium. This includes the ability to create polls, feedback systems, automated inquiries, and others.

SMS GATEWAY unleashes the unlimited potential in leveraging on such a simple and advanced technology for governments, corporations, SOHO, SMI and for individual data users.
